(International News Service)

WASHINGTON, Oct. 28.—War between Henry Ford and the United States government, a war that can only be settled in the courts, was seen today as the outcome of the motor manufacturer's refusal to embrace the blue eagle.

Castigation of Ford by Gen. Hugh S. Johnson's recovery administrator, and Ford's counter-attack that Johnson was assuming the prerogatives of "a dictator" made the issue clear. The belief was general in Washington that the courts will have to decide it, and, incidentally with it, the question of the whole power of the federal government under the NRA.

President Roosevelt is backing Gen. Johnson. That was made emphatic at the White House. Johnson's decision that until Ford comes under the wings of the blue eagle, in name as well as in fact, he is barred from participation in government contracts, has the full support of the president.

Ford could sue the government to compel it to accept bids for equipment in cases where he is the low bidder. On the other hand, the government could institute action against Ford on "concrete evidence" that he is a violator of the National Recovery Act. Johnson said he considered Ford a violator, but admitted that he did not have "concrete evidence" of it.

PA NEW OBSERVES

Announcement that the mile and a half stretch of the New Castle-New Bedford highway, just outside of New Castle, is to be repaved with concrete, is good news to all interested in better roads. The old macadam highway is too narrow. It will be replaced with a 30 foot wide section, which will be a fine improvement. The road is part of the Benjamin Franklin highway, and also of the road leading to Youngstown.

Suggestion of Dr. G. S. Bennett that men in the work relief squads of the city be used to build a swimming pool, and also to fix up recreation spots at Dean Park, as made to council yesterday, sounds good. Why not provide some baseball diamonds, and other facilities for youth of the city, during the winter, and be ready for next summer season.

The children's librarian at the public library is wondering to whom the little leather jacket belongs. It was left at the library one week ago Friday. But some mother is worried even if her little son isn't.

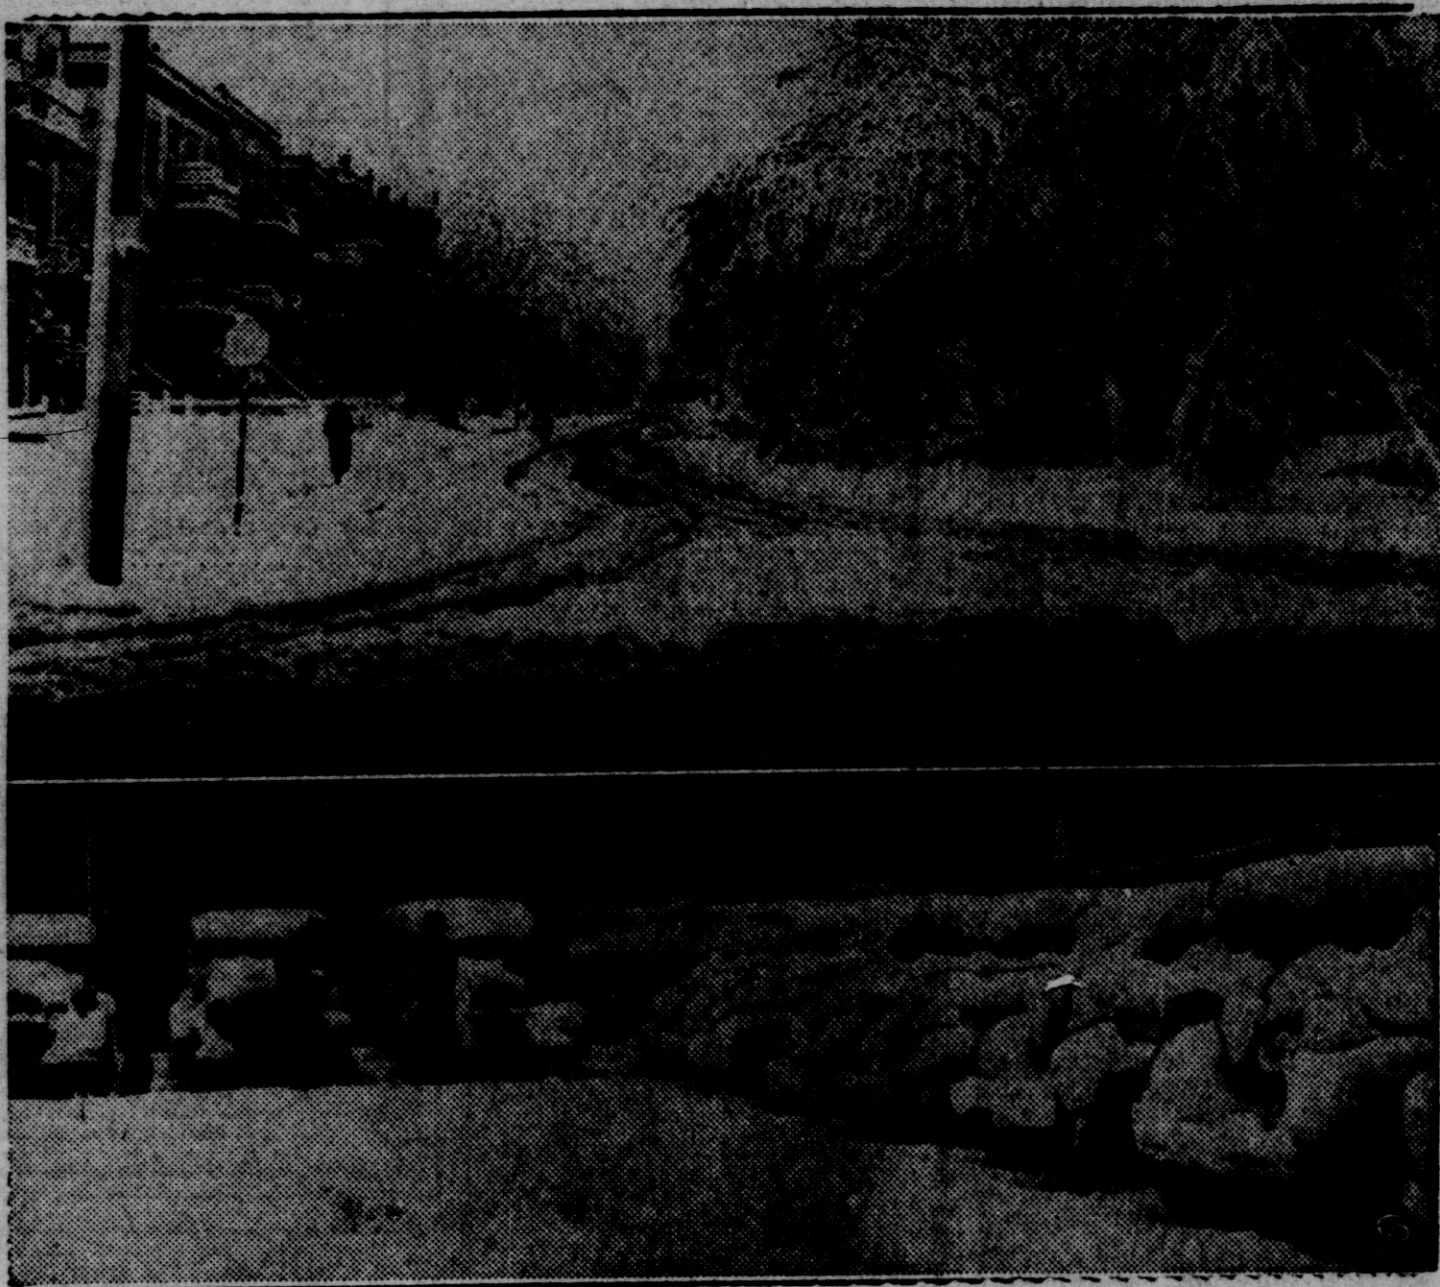

Although story hour wasn't scheduled to commence until 10:30 at the library this morning, the boys and girls began arriving at 9:10. By 9:30 there were twenty or more youngsters possible. Next week the story hour will commence at 10 o'clock since there are so many early birds among the very young set.

Another small dam is being built in Neshaunock creek at the South Mill street bridge, Pa. News noticed Friday.

King Winter's First Blast Blankets Montreal

Giving a sample of what might be expected during the coming weeks, King Winter issues a serious blast of snow as a starter for the season at Montreal. Nearly 10 inches of snow fell in the city, the worst early season blizzard in the Canadian city in eight years. Some automobiles caught in the storm are shown below. At top, a residential street of the city.

November 10 Is Date For Public Reception For Prof. J. L. Moser

Plans for the reception to Prof. J. L. Moser were furthered Friday night when a meeting of the committee members selected from those schools which have organized alumni associations. The formation of such a committee came after there had been considerable interest shown in the idea of honoring this fine old veteran of the New Castle schools.

Prof. Moser is known to every person who attended the New Castle schools up to a few years ago. For nearly half a century he instructed the boys and girls in penmanship and many of his former scholars are today men and women of affairs. The committee laid plans for a public reception to be held in the Benjamin Franklin Junior high school on the evening of November 10, at 8 o'clock. The board of education, the superintendent and the secretary and business manager will be special guests.

At the meeting Friday night it was decided to have a treasure chest which would be at the doorway as the guests file in on November 10. In this treasure chest they can put letters of congratulation, cards, checks or money as they see fit. This will later be presented to Prof. Moser by Fred L. Lentz.

Fred L. Lentz and Edward D. Pritchard were appointed as a publicity committee Friday night and a committee appointed to arrange for speakers at the reception.

Former E And A. Division Head Is Visitor Here Enroute To Ohio City

W. Miller Wardrop, formerly superintendent of the Erie and Ashland Division of the Pennsylvania Railroad here, was a visitor in the city today on his way to Niles, O. The new South Main Street viaduct is being dedicated in Niles today and Mr. Wardrop will play a prominent part in the ceremonies.

At one o'clock a dinner was held in McKinley Memorial Hall, at which dinner Mr. Wardrop was the principal speaker. Following the dinner a parade was to form to march to the new viaduct where Governor George White made the dedicatory address.

Mr. Wardrop is now the Assistant General Manager of the Pennsylvania in Pittsburgh.

Second And Last Day Of
Jameson Hospital Food
Gathering Opens
Strongly

Lawrence county and New Castle friends of the Jameson Memorial hospital are "saying it with food," today and the noon report from the Jameson Memorial Hospital Aide Society would indicate that the annual Food Donation Days are going over the top.

The donation days received a fine start yesterday. The food contributions continued to arrive at the hospital lobby in a strong and almost constant flow this morning. Although this evening will bring the ingathering to an official close, it is believed that even more gifts will continue to arrive on Monday. The granges will report this afternoon. Showing the appreciation of the community for the privilege of having such a splendid institution as the Jameson Memorial hospital is the large assembly of canned fruits, jellies, spreads, and vegetables piled high in the first floor corridor. They represent the choice selections from many a pantry.

Food gifts can be left at Atkinson's paint store on North Mill St. if inconvenient to take them to the hospital.

Bank Bandit In Woman's Disguise

Pair Rob Ohio Bank This
Morning, Believed Es-
caped Convicts

ABOUT \$1,000 IN
CASH IS SECURED

(International News Service)
WATERVILLE, O., Oct. 28.—Two bandits, one of them dressed in fashionable clothes of a woman and carrying a machine gun, today invaded the Waterville State Bank here and escaped with \$1,000 in cash.

Victims of the hold-up, three employees and one customer, were taken to Toledo immediately to view Bertillon records to determine whether the bandits were members of the mob of John Dillinger, now spreading a reign of terror over the Indiana-Ohio border region.

C. L. Shoemaker, president of the institution; Nina Graft, a teller, and Katherine Capron, a customer, were in the bank when the bandits entered.

Disguised as Woman
While the robber disguised as a woman stood near the entrance, the second bandit went to the teller's window to demand change for a dollar bill. He then drew a revolver and forced the three to lie on the floor.

At this juncture Miss Leah Snyder, a bookkeeper of the bank, entered. The outlaw in woman's clothing drew a machine gun from under a smart brown jacket and forced her to join the trio lying on the floor.

"I'm positive that it was a man," said Miss Snyder. "I could tell by his features and the manner in which he wore the clothes."

In making a getaway the bandits stumbled over a bank alarm button. They ran to the street, jumped into an automobile and disappeared in the direction of Toledo.

New York Mayor Candidate Can't Use NRA Insignia

(International News Service)
WASHINGTON, Oct. 28.—Recovery Administrator Hugh S. Johnson today notified Joseph V. McKee, New York mayoralty candidate, that he cannot use NRA insignia in connection with his campaign against Mayor O'Brien and Fiorello H. LaGuardia.

Johnson's telegram to McKee read: "Use of NRA insignia or letters on a political poster in such manner as to tend to identify it with a particular political faction is unauthorized and contrary to NRA circular No. 1 interpretation of Sept. 27, executive order of Oct. 14, and regulations of Oct. 17."

Johnson's letter followed a receipt of a telegram from LaGuardia in which the fusion candidate charged that McKee's supporters were unlawfully using the NRA's blue eagle symbol.

Graf Zeppelin Goes Southwest Of County

New Castle and Lawrence county residents were disappointed this morning that the Graf Zeppelin failed to pass over this locality.

The Graf left Akron, Ohio on the trip to Germany about 9 o'clock, and shortly before 10:30 o'clock was seen over Pittsburgh, apparently going southeast from Akron, instead

of heading directly east and coming over New Castle.

Several years ago when the Graf Zeppelin made the trip around the world, it went over New Castle during the night. It was thought that the trip east from Akron might include this district again, but apparently another route was selected.

FEDERAL-AID ROAD JOB BEGUN; TAKES 140 MEN

Financed by funds which the government has made available through the Federal Public Works bill, work of improving two stretches of rural road along the northern edge of Lawrence county, Route 614, from New Wilmington to Volant and from Volant to Leesburg, was actually under way today.

The Cooperative State Employment bureau, which the local branch of the state highway depends upon for workmen, sent 25 workers to the New Wilmington-Volant job this morning. The Volant-Leesburg job was commenced earlier this week.

Over 140 men, the federal government estimates, will be given work before the entire four-mile-long project is completed. A type of roadway excelling the Pinchot road type of construction has been specified.

R. L. Meermans, superintendent of the job office here, declared this road project is the first federal-aid construction to be launched in Lawrence county.

All of the workers will be employed on a 30-hour week basis, it was said.

Construction on the New Wilmington-Volant lap has begun at the college town end while the work on the Volant-Leesburg stretch was begun at the Volant end.

The state highway department is handling the work of all federal-aid road jobs.

Russian Foreign Minister Be-

Be Successful

(International News Service)
BERLIN, Oct. 28.—Discussing publicly for the first time his forthcoming conference with President Roosevelt, Maxim Litvinov, Soviet foreign minister, today hinted indirectly that American recognition negotiations would be concluded in his Washington talks.

With it generally conceded that the Soviet official's conference with Roosevelt will lead eventually to recognition, Litvinov was asked by American newspaper correspondents he was receiving whether the forthcoming talks would merely be a prelude to others.

"I hope this will be final," Litvinov replied readily. "The matter should be settled within half an hour."

Debt Negotiations Of British Mission Fail To Progress

By GEORGE R. HOLMES
International News Service Staff
Correspondent

WASHINGTON, Oct. 28.—Negotiations for the settlement of Great Britain's \$4,000,000,000 debt to the United States have bogged down.

They have not collapsed entirely. No deadlock has been reached—but the British have thus far been unable to propose anything sufficiently attractive for President Roosevelt to pass along to congress which has the final voice in the matter.

Debt Mission Chief to Sail
Consequently, it is expected that Sir Frederick Leith-Ross, chief of the British debt mission, will sail for home within a fortnight to report to his government. Sir Frederick has been in Washington almost a month with T. K. Bewley, British treasury expert, holding irregular meetings with treasury officials. At one of these meetings, Sir Ronald Lindsay, the British ambassador, is reported to have gone to sleep, which is an eloquent commentary on the nature of them.

No definite, concrete proposition has been advanced by the British, according to reliable authority. The nearest approach to it was a suggestion that the British should

Officers were elected for the coming year, Amendment 8 to the state constitution providing for a \$25,000,000 bond issue was approved, and an address by Dr. W. H. Dennison, Deputy Superintendent of Public Instruction heard as the teachers of seven counties held the final session of their convention today in the Cathedral. The final session adjourned at 12:15 and success can be written after the second annual convention.

James A. Gibson, veteran educator of Butler, Pa., superintendent of Butler schools for many years, was the unanimous choice of the convention for president. S. Warren Lyons, who has been president automatically takes the first vice presidency, and W. D. Gamble, superintendent of the Sharon schools, was elected to the second vice presidency. W. D. Welch, superintendent of the Greenville schools, was elected as secretary; Principal Frank L. Orth of the New Castle senior high school, as treasurer, and W. G. Lambert of Beaver county and Vaughn R. DeLong of Ellwood City elected to the executive committee. The place of the next convention will be decided by the executive committee later in the winter.

Marriage License Business Booming

Twenty-Three Couples Secure
Licenses To Wed At Court
House Saturday

Possibly the near approach of Halloween was responsible for the big rush of applicants for marriage licenses at the court house on Saturday, or it may have been just a coincidence—that twenty-three couples faced Deputy Prothonotary Margaret Garvin, who issues the licenses.

At any rate there was a steady stream of applicants from the time the court house was opened until noon. As usual the larger number of applicants came from Ohio, but there were five from New Castle and Lawrence county. They embraced all colors and several nationalities.

For the most part the applicants were of age, but in several instances the prospective brides and grooms were accompanied by their parents, whose consent is necessary where applicants are under age.

In addition to the big spurt of business at the prothonotary's offices, aldermen, justice of the peace and ministers, shared in the spoils. It was the biggest day's business in a long time and is taken to indicate that young couples are looking into the future with returning confidence.

There are blocks strewn over the kitchen floor, scattered from wall to wall, and trucks and dogs and a horse voiced drum that litter the stairs and hall. I've stumped my toe as I groped my way in the dark of an early morn, and I've jagged myself on a barrow edge, that felt like a metal thorn. Ten times a day and another ten his mother clears up his toys, but it seems that litter is part of the life of red blooded little boys. He tosses them here and he tosses them there, he plays with them early and late, and they're left to ensnare one who walks through at night, the weather is fifty eight.

Squadron Of British Royal Air Force Is Sent To Palestine

ARAB AGITATION IS FLARING ANEW

JERUSALEM, Oct. 28.—A new series of riots broke out in various sections of Palestine today as police and military resorted to extreme measures to cope with the rising tide of Arab protest against increased Jewish immigration.

Hard on the heels of rioting at Jaffa which took a reported toll of lives, disorders occurred at Nablus and Haifa. At least three demonstrations were seriously injured.

British Air Force Arrives
Jerusalem, Oct. 28.—Squadron number six of the British Royal Air Force arrived at Jaffa today to help maintain order in the wake of serious riots between police and Arabs protesting against the immigration of Jews to Palestine.

While official accounts placed the death toll in the clashes at 11, reliable reports reaching here said at least a score had died. About the same number were wounded seriously and several scores received lesser hurts.

The situation remained tense at Jaffa.

The old Arab agitation against the reclaiming of Palestine by the Jews has flared with particular heat in recent months as a result of the influx of Jewish refugees from the Hitler regime in Germany.

(Continued From Page One)

tendent of public instruction, was unable to be present owing to a call to Washington, D. C., and in his place Dr. W. H. Dennison, deputy superintendent, spoke. He spoke on "Legislation, Recent and Proposed." In his address he reviewed the legislation of 1923 and said that the legislature was short \$5,000,000 on the total school appropriations which were needed. Mentioning the 10 per cent salary reduction act, he said that this was accepted by the educators only because they were afraid the Edmunds act might be repealed entirely if something were not done. He also said that the session of 1935 would be urged to restore the 10 per cent cut in teachers' salaries.

Recommendations Made
The committee on resolutions expressed the thanks of the convention to the officers of the convention, to the New Castle school board and Superintendent Green for their co-operation, to The News and the speakers of the convention.

The committee recommended a revision of the state tax system, and an increase by the state in the cost of operating local school districts. The child labor amendment was endorsed, condemned the fee system of tax collection and urged the teaching of the effects of alcohol in the public schools.

In adjourning the convention President Lyons expressed his gratitude for the co-operation of the officers and members of the mid-western section and urged them to still finer co-operation with the officers for the coming year.

Friday Afternoon
Numbering nearly 3500, the teachers of the Mid-Western Section, Pennsylvania State Education Association attended the Friday afternoon session of the second annual convention of the organization.

From Clarion and Jefferson counties, from Mercer and Butler and Armstrong and Beaver and Lawrence counties they were here dropping their role of instructor for a time to sit as students under the instruction of some educational leaders.

Opening the program the Senior High school orchestra under the direction of Joe F. Replogle presented two concertos: one in which Marie Fisher took the clarinet solo work and one in which Anthony Casbro took the violin solo part. Both concertos were presented in a manner that exceeded anything the orchestra has done this year and the reaction by the teachers was enthusiastic.

Dr. M. M. Pearce, president of Geneva College formally opened the session with an invocation after which the president of the section, Supt. S. Warren Lyons of New Brighton took charge. In a brief way he welcomed the teachers to the convention. "We are glad to be back in this wonderful building for our second convention," said he.

Organized but a short time ago our section has grown remarkably and this splendid crowd here today is evidence of the interest of you teachers in the organization side of your profession.

Urged Support of Amendment No. 8
He then introduced Dr. James Herbert Kelley, executive secretary of the Pennsylvania State Education Association in Harrisburg. At the very outset he launched into a plea for the support of Amendment No. 8 which will be on the ballot on November 7.

This amendment is one in which every teacher should be interested," said Dr. Kelley. "It means that the state aided hospitals throughout the state will be enabled to keep open their doors. It means that relief money can be appropriated for the alleviation of hunger and suffering this winter and its means that the schools and colleges that are aided by the state will not be hampered in the coming year. I want to urge every one of you to support this amendment in as large a way as you can. Your state officers are for it, it has the endorsement of labor, of capital and of the professions. There is no organized opposition to it but there is a danger that through ignorance of the facts, the amendment may be lost. Auditor-General Frank A. Baldwin is the only person in office opposing it, and he offers the alternative that money should come from motor license fund. This plan was presented and did not succeed. The only course left seems to be to pass amendment eight."

There seems no doubt that there will be a special session of the General Assembly," said Dr. Kelley. "If the governor includes education in the call, as we hope he will, we intend to ask for a five million dollar appropriation to assist schools that are in need and another six millions to keep the Edmunds act functioning as it should. We also intend to ask for child labor laws that will put the state in harmony with the NRA and finally we intend to ask for the enactment of the Child Labor amendment."

Closing his address Dr. Kelley urged upon the teachers to support the NRA in every way they could. "Hold the line for education," he urged as he finished with a plea for the teachers to not lose courage during these critical days.

Dr. Weir C. Ketter
Dr. Weir C. Ketter, president of Grove City College was the second speaker of the afternoon taking as his subject "How to Spend Our Leisure Time." In his address Dr. Ketter declared that our development as a nation had been materialistic, that our philosophy was shot through with mechanistic theories and that the spiritual development of the people had not kept pace with the material.

"We are at the end of an age," said Dr. Ketter. "With the material development of the nation we find people with more leisure time on their hands. What to do with it is a grave question and the answer rests upon the educators of the country."

Dr. Isaac T. Headland, veteran educator of Mt. Union College was the last speaker on the program and spoke on "Conditions in the Orient." Dr. Headland proved to be an

entertaining speaker. He spent six years in the Orient and during that time gathered a great deal of material upon the Japanese and Chinese folk life. He has a collection of Chinese Mother Goose rhymes many of which he used.

The Japanese he characterized as the "greatest adopters and adapters in the world." The Chinese he pictured as a wonderful people who would not fight. "Any nation can whip China," declared Dr. Headland, "but nobody can rule them. It has been tried. The Mongols conquered China and they assimilated them. The Manchus conquered China and you never hear of the Manchus any more. The Ming dynasty ruled for several centuries but they overthrew it."

Nominations for Officers
Nominations for officers for the coming year were then in order. President Lyons asking for nominations from the floor. Only one nomination for president was made that of Supt. John A. Gibson, of Butler, Pa., the oldest superintendent in Pennsylvania in terms of years of continuous service in the city.

President Lyons automatically becomes the first vice president so there was no nomination for this office. For second vice president two nominations were made, that of E. D. Leaf of Ambridge and Supt. W. D. Wadsworth of the Sharon schools.

R. D. Wadsworth of Greenville was the only nominee for treasurer. For treasurer, J. Edw. Smith of Beaver Falls and Principal Frank L. Orth were nominated. For two places on the Executive committee, W. G. Lambert, superintendent of Beaver County schools and Supt. Vaughn DeLong of Ellwood City were nominated.

President Lyons then appointed L. H. Wagenhorst of Slippery Rock, Gerald C. Nord of Besemer and A. L. Winter of West Middlesex as a Teller committee and the afternoon session adjourned.

Friday Evening
"American civilization has been uprooted in the present crisis," declared Joy Elmer Morgan, Friday night in the Cathedral, where he addressed the night session of the mid-western convention of the P. S. E. A. Mr. Morgan is the editor of the Journal of Education in Washington, D. C., and has been an outstanding figure in the educational world for many years.

"We are in a great transition, a time when we have an attitude of experimentalism. There are ten million unemployed in this country, of which three millions are youth for whom there appears to be little hope for educational or vocational opportunity. In New York and Chicago alone there are a million people who can never hope to be maintained there. We must move them out into smaller communities, mobilize them on the outside."

Education has been hit hard, Mr. Morgan said. Chicago is an outstanding example of the breaking down of a fine school system, he declared. The junior high schools were destroyed there, 1300 teachers discharged, and the junior college destroyed. "Chicago will pay a heavy toll for this in later years," said Morgan.

Morgan said that 1933 marked a return of faith and courage. "There is less defeatism," said he. "While the road ahead is a long, hard one, we enter it with knowledge that our government is now master in its own house, that the money changers and financial racketeers must be driven out of government."

He urged recognition of Russia and said that this should have been done years ago. He said that the greatest danger in the years to come would be in agriculture and said that while the present governmental measures in force are emergency measures, we are never going back to the old systems.

Dr. Robert Arthur Elwood
Dr. Robert Arthur Elwood, pastor of the Boardwalk church in Atlantic City, N. J., was the second and last speaker of the evening. He spoke on "Personality Plus." Personality alone is not sufficient, said he. There must be faith with it and faith plus personality makes personality plus.

His address added the touch of humor to the day's program that was needed to sweeten the whole, and his audience enjoyed this witty philosophy. He has been pastor of the Boardwalk church in Atlantic City for 25 years and in addition to being an outstanding minister of the gospel, is a clever platform speaker.

Preceding the speaking program the senior high school orchestra presented a concerto, with Dorothy Fisher taking the piano solos. A double quartet of school teachers followed and the quality of their work was pleasing.

The evening session saw the auditorium filled with teachers, supervisors, principals and superintendents. The lobby of the auditorium contains the commercial exhibits, and here the teachers find the modern equipment which has been developed for their profession in the past year or two.

In and in achievement the present convention has been every expectation of the teachers and, when they leave this afternoon at the close of the convention it will be with a feeling of satisfaction at having attended.

Over Two Hundred Hear Library Tales
Story hours conducted Friday afternoon at the East Side branch of the New Castle free public library attracted 218 boys and girls.

Miss Alice Joyce, children's librarian, recounted to 114 pairs of interested ears this morning, the tales of "Burg Hill is On Fire" and "Twelve Silly Sisters." The same stories were told at the East library at 4:00 p. m. yesterday to 104 youngsters.

Story hour will be conducted regularly from now on, every Saturday morning, at ten o'clock, at the central library building.

Mrs. William C. Rotzell of Bryan, O., has concluded a ten-day visit with her daughter, Mrs. Donald Copson of Garfield avenue.

FORD'S CONFLICT OVER BLUE EAGLE MAY GO TO COURT

(Continued From Page One)

to reach the courts would be for Ford to refuse to supply the information requested by the National Automobile Chamber of Commerce, which is the code authority in the automobile industry. This information was requested of all motor manufacturers and relates to hours, wages, conditions of employment, production costs, etc. Thus far has not supplied it. A deadline of November 7 has been set.

Violating Code
Unless the information is forthcoming, Johnson declared Ford would be violating the code. And armed with "concrete evidence," he said he would turn the case over to the attorney general for action.

The administration's effort to force Ford into open acceptance of all NRA activities within the automobile industry apparently has also made necessary a final definition of single word in the recovery act. That word is "bargain," as it is written into the portion of the act guaranteeing workers the right to "bargain collectively" with their employer.

Failed To Comply
Edsel Ford told Gen. Johnson some weeks ago, Johnson said, that the Ford Motor Company never would consent to "bargain collectively" with its employees. Johnson, therefore, holds that Ford has failed to comply with the automobile code, which contains the collective bargaining guarantee intact as one of its provisions. Johnson said he believed this constituted an "overt act" in violation of the code.

Under pressure by the NRA National Labor Board the Ford Company last week consented to let officials of assembly plants at Chrysler, Pa., and Edgewater, N. J., "meet" with representatives of strikers at the plants.

Mediators of the labor board, however, were excluded from the "meetings" and settlement of the disputes still depends on word from Ford.

The question for somebody to decide—and President Roosevelt probably will be called upon to decide it—is whether or not "meeting" with workers and refusing to concede any important points really amounts to "bargaining" under the terms of the Recovery act.

Steel Code Dispute
A parallel case will be up to the president on Monday in connection with the dispute between steel company operators of "captive" coal mines and representatives of strikers at the mines.

At the president's command the steel officials met with the miners representative, Philip Murray, vice president of the United Mine Workers. They were told to "enter at once in good faith" on negotiations for a suitable wage agreement with the union, but Murray has since charged that the steel officials only "met" with him and did not "bargain" at all. They refused to make any concessions and the negotiations were broken off.

At a meeting with Myron C. Taylor, chairman of the United States Steel Corp. and other steel magnates, the president will decide if he will "bargain" with Murray and assumed to nothing but a flat rejection of "reasonable demands" by the workers.

Verbal Shots Exchanged
DETROIT, Oct. 28.—Only the smoke of battle lingered at the Ford Motor Company today following the exchange of verbal shots yesterday between the company and General Hugh S. Johnson over the national recovery administrator's intimation that the company was in violation of the NRA code.

Following the sharp rebuke hurled at Gen. Johnson, Ford officials refused to amplify their statement in which Johnson was assailed as one who talks like a dictator and the supreme court.

gation that the payments be scaled down to approximately ten cents on the dollar and spread over a period of years, but even this was not put into concrete form. Under Secretary of the Treasury Dean Acheson indicated this was totally unacceptable to the United States and the matter was not pressed.

U. S. Proposes Nothing
The American negotiators have proposed nothing to the British. Taking their cue from President Roosevelt, they have assumed the position that the present conference was not of American initiative and that propositions, if any, should come from the British.

The stalemate in the negotiations poses a question for the British as to what to do about future payments. The next is due on Dec. 15 and amounts to some \$117,000,000.

The girls worked diligently in making this a complete success and aside from the display of quaint quilts, there were historical articles of equal interest. Handkerchiefs were taken from the attics to add to this collection.

One quilt in particular, over a hundred years old, was hand carded in wool. This attracted much attention.

After the guests had made the rounds they adjourned to the dining room where Mrs. W. O. Williams, teacher of the class, poured tea and her aides served dainty cakes, sandwiches, etc. The table was cleverly decorated with a centerpiece of baby mums and the refreshments were enjoyed by candlelight. All Of Us

BY MARSHALL MASLIN

IT'S NO MIRACLE
There's a picture on our wall, standing out against the dark redwood, but it is not one that people notice immediately.

It is too delicate and simply made and it never shows. . . A little landscape. A rolling vista of lowland and the sea. You'll look across an arm of the ocean that lies quiet and serene in the spring sunshine and you see little houses in the trees with the smoke rising almost straight from their chimneys. And off to the left there's the tall spire of a church. I think that little corner of the earth is somewhere on the New England coast and I have never seen it. But I do think it would be a restful place to live, or even to visit for a while.

The picture is an etching. It was made with a fine needle, without black or gray, so light that the needle seems hardly to have rested on the plate. . . And you might say, looking at it, that a little man made it. A man with long tapering fingers. A man with a narrow sensitive face, with quivering nostrils. A man who suffers and has had headaches and is easily hurt by life and has some trouble making adjustments with other human beings.

I thought that, too, until recently. . . Until I was told that the man who made it was a huge fellow, "a barge of a man," with a big body and a great head and a thundering laugh and a rich zest for living. And I was told, too, that his hands were those of a giant, the kind you see on the shortstop of a championship baseball team. His little fingers were as big as the thumb of an average man and all of him was made in that proportion. . . But he takes a bit of this earth as delicately arranged as this New England landscape and transfers it with those thick fingers of his to a copper plate and from that plate to a piece of paper. . . And when I look at that etching it seems a miracle to me. But no more of a miracle than any of the fine tenderness and light touch of other men who cannot make etchings but who do handle life as naturally and easily as this man made this picture. . . I have known such men, and so have you.

BE SLOW TO CRITICIZE
How often you criticize a person for doing what you have not the courage to do.

Often you denounce someone for some act that you, yourself, have contemplated doing for years. . . It is because of any better principles on your part that you have refrained from becoming a violator of the law, for which you now demand the punishment of another person?

You know that you have been tempted to do things from which you were deterred, not so much from principle, but for fear of the consequences if it should become known.

This punishment might be of a physical or a mental nature. . . Early training, good environment, loyalty to your family name has undoubtedly had much to do with keeping you in the right path.

Fride then, has been the strong force directing your life course. . . But knowing all this, it does not make you any more lenient toward those who have made a false step. You don't consider the handicaps of the one who falls.

While you were watched and held back, the one you denounce may have been just the opposite, training and with his or her environment, you might not have done as well.

OLD AGE
I used to think that growing old was reckoned just in years.

But who can make the very date when weariness appears? I find no stated time when man, obedient to a law, must settle in an easy chair and from the world withdraw.

Old age is rather curious, or so it seems to me.

I know old men at forty and young men at seventy-three.

I'm done with counting life by years or temples turning gray. No man is old who wakes with joy to greet another day.

What if the body cannot dance with youth's elastic spring? There's many a vibrant interest to which the mind can cling.

'Tis in the spirit age must dwell, or this would never be: I know old men at forty and young men at seventy-three.

Some men keep all their friendships warm and welcome friendships new. They have no time to sit and mourn the things they used to do.

This changing world they greet with joy and never bow to fate; On every fresh adventure they set out with hearts elate.

From a chilling fear and bitter dread they keep their spirits free. While some seem old at forty they stay young at seventy-three.

So much to do, so much to learn, so much in which to share! With twinkling eyes and mind alert some brave both time and age.

And this I've learned from other men, that only they are old. Who think with something that has passed the tale of life is told. For age is not alone of time, or we should never see.

Men old and bent at forty and men young at seventy-three.

Tufford Molar went to his dentist, Dr. Yankem, to have an eyetooth pulled. The tooth proved to be obstinate, and although Dr. Yankem exerted all his strength, he could not budge it, but being a determined individual, would not give up. He told Mr. Molar to return in a week. Being of a mechanical turn of mind, he rigged up a contraption of pulleys and gears, and when Mr. Molar returned, was ready for him. Getting a secure grip on the tooth, he started the pulleys and gears to work.

The tooth was so imbedded in the jaw bone that it could not be torn loose, but yielding to the mechanical pressure, the tooth came out but with it also the entire skeleton of Mr. Molar. When the latter came out from under the gas—which had been administered before operations were started—he threatened Dr. Yankem with a heavy damage suit, but was pacified when the latter convinced him of the fortune that was his, by exhibiting himself in a carnival or sideshow as the India rubber man.

"One," he answered, "is an apologist in Kansas, one a numismatist in Texas, and one, Uncle Isaac, is merely a lepidopterist in Missouri."

Liberty Bond Conversion Gives Renewed Confidence

Belief In Sound Condition Of Treasury Is Declared To Have Been Shown by the Attitude Of The Public Toward The New Offering

The treasury, in the opinion of editorial writers, has taken a wise step in announcing its purpose to convert at this time one-third of the outstanding Fourth Liberty 4½ per cents. Of primary importance is considered the implication which this announcement carries of a sound monetary policy for the future.

"The treasury's decision has evidently been occasioned," says the NEW YORK TIMES, "first, by the fact that conversion of \$1,900,000,000 of 4½ per cent bonds into 31-45 would save \$19,000,000 in the annual interest charge; and, second, by the marked success of similar loan conversions lately undertaken."

The NEW YORK TIMES, however, is concerned over the increase in the public debt which such a financial operation will bring about and points out that the treasury "is employing this method to obtain cash for the general fund in anticipation not only of demands for cash payment, but also of the requirements of various other demands upon the government's exchequer."

The NEW YORK SUN considers the offer a generous one, and predicts that such a strong inducement to conversion as the extra interest for the initial year will meet with immediate success, and the NEW CASTLE NEWS feels that "to the war-time patriots who retained their holdings, as well as the shrewd investors who bought Liberties in 1920-22, in some instances as low as 85, the government grants more than originally promised."

The SIOUX FALLS DAILY ARGUS-LEADER, on the other hand, wonders whether "congress had any constitutional right to say that the Liberty bonds should not be paid in gold. To do so, it is contended, is to convert, directly or indirectly, into law, a measure which no legislature or the congress can make laws impairing contractual obligations. Perhaps some one will be sufficiently interested to test in the courts the right of congress to say that the Liberty bonds should be paid in depreciated currency instead of gold."

"For the average man," declares the YOUNGSTOWN DAILY VINDICATOR, "it means that the government considers business on a sound basis and that it will continue upward. Were the trend of business reversed, going downwards, and prospects ominous for the government instead of offering lower interest on its 4½ per cent bonds which mature next April, would be obliged to offer considerably more."

The CHARLESTON EVENING POST looks upon the government's plan as likely to prove "a beneficial and stabilizing factor in the investment situation" while the MIAMI DAILY NEWS calls attention to the fact that "under the strain of the times, real estate as a basis for credit has broken down. Stocks have done no better. Industrial credit has been impaired. The one value which has stood firm," says the Daily News, "has been the obligation of the United States. It is on that foundation that recovery must be and is being built. Wise were the men who

said that the credit of the United States government must not be impaired.

"The large demand for every new issue of low-interest government obligation," is cited by the SAN ANTONIO EXPRESS as "evidence of an abounding confidence in the stability of the national credit, notwithstanding the suspension of gold payments and the necessity for continued heavy borrowing."

The TACOMA (WASHINGTON) DAILY LEDGER compares the small demand for French bonds based on gold with the much greater one for American unsecured bonds and concludes that "America must be regarded as fundamentally sound."

In the opinion of the NEWARK EVENING NEWS, "the move is along orthodox lines and carries its own indication that the definition of the administration's monetary policy will carry out President Roosevelt's pre-election pledge of sound money and dispel lingering fears of inflation."

The GOSHEN DAILY NEWS-TIMES also believes that "inflation has been decided against."

The WASHINGTON EVENING STAR emphasizes the fact that "it is within the power of the president to resort to the inflationary expedients outlined in the Thomas amendment—namely the issuance of up to \$3,000,000,000 of 'printing press' money," and sees a degree of comfort to all sound-money advocates "in the treasury's reliance upon orthodox and sound methods of refinancing."

"And for the tiny dog over there?"

"That is a pedigree dog—one hundred pounds for him."

On his way to the spot where the mine was thought to be the expedition came upon a Spanish settlement, a fight ensued, Raleigh's son was killed. Andrew Hamilton of Philadelphia volunteered to plead the defense, overrode obstructive tactics of the presiding justice, a Cosby adherent, moved a jury to acquit him (on this date) with a plea for "The liberty of both expressing and opposing arbitrary power in these parts of the world, at least by speaking and writing truth."

"It is going to require financial management of the very highest order in the treasury," suggests the PROVISIONAL JOURNAL, "to take care of the frankly avowed economic program of the administration. Session Is DullSpeculative Activity Is At
Low Ebb—Trading
Is SlowBy LESLIE GOULD
International News Service Finan-

NEW YORK, Oct. 28.—Stocks turned in a dull and uninspiring performance in today's short session and the trend appeared to be toward lower levels. Speculative activity was at low ebb and total turnover for the session was at the rate of 250,000 shares for the day.

Rail-coordinator Eastman's rejection of the steel company bids for rails unsettled the steel shares with losses in United States Steel, Bethlehem and Youngstown running to more than a point.

The principal rail shares including New York Central, Lackawanna, Southern and others in the lower priced brackets reacted from fractions to more than a point.

Consolidated Gas and the other utilities were lower, but this was apparently due more to a lack of interest rather than to any aggressive selling.

Among the more volatile trading favorite United Aircraft, Western Union, Case, and Allied Chemical, the trend was toward lower levels with losses running to a point and more.

Liquor shares including National Distillers, Schenley, and American Commercial Alcohol lost from fractions to more than a point.

The commodity markets tended easiness with wheat dipping about 1 cent a bushel. The grain markets showed a better tone than stocks, though, due to the buying by the government.

Trading of the government gold buying price to \$31.82, up 6 cents from yesterday's quotation in the face of a sharp decline in the London price failed to have a great effect on the gold shares. Alaska Juneau, United States Smelting, and Dome sold down slightly.

Chrysler, General Motors and Auburn were dull and slightly lower with interest obviously lacking.

Police Move To Halt Boo-ing At Sporting Events

Conduct Of Trio At Taggart Stadium Results In Ac- tion By Police

Chief of Police John Haven last night took the first initial step toward eliminating booing from sports. In fact, the chief and two other officers arrested three men. As a firm supporter of athletics of all kinds, the chief does not believe the "boo" is part of the game—especially not when a spectator at a sporting affair approaches a woman and boos into her face.

At the Chaney-New Castle game last night a man approached a woman and poked his nose almost against her face. He started to boo. One of the six-foot bluecoats who was near seized the man and ejected him from the game. He didn't stay put, returned and approached the officer.

"I want to talk to you," he declared.

"All right, you're under arrest," replied the officer.

Two of the arrested men's friends ran to the officer. Within a moment Chief Haven and another officer collared them and had them taken with their friend to the city police station.

Later the chief gave the men a talking to. He pointed out that booing, and done especially in the manner in which the man arrested first did it, was sure to bring arrest.

He then let the men out of the clutches of the law.

Alderman And Mrs. Coates Return Home After Four Months

Veteran Alderman Is Back At Duties After Vacation For His Health

Alderman H. G. Coates was back at his office Friday after being absent from Mahoningtown for over four months. He is now in good health, has resumed his many duties and has been receiving a hearty "welcome home" from his host of friends.

Alderman and Mrs. Coates left here in the early summer for Michigan and Illinois to visit their sons, James and W. Greyson, at Constance, and Hiram H. at Chicago. The vacation was necessary because of Mr. Coates' failing health. That the vacation did him good is obvious. They made visits in Missouri and Colorado during the stay.

The family and friends of the couple in this city were surprised to learn that Mr. Coates himself drove the entire distance home. He and Mrs. Coates left Constance at 9:00 a. m. Thursday and were here at 6:00 p. m.

"Apples in the Tub" and "Murder" proved popular games of the evening. In a "cake walk" planned as a surprise event by the troop girls, Mrs. Guy was awarded the prize, a cake. Refreshments appropriate to the season were served at a proper time.

Mussolini Talks To 50,000 People In Rome, Italy

Eleventh Anniversary Of Fascist March On Rome Is Celebrated

(International News Service)
ROME, Oct. 28.—Premier Benito Mussolini today called upon the people of Italy to make their nation "first in the skies, on land and in the spirit."

Addressing a crowd of 50,000 gathered in the courtyard of the Palazzo Venezia as part of the ceremonies commemorating the 11th anniversary of the Fascist march on

Rome, Il Duce linked military prowess with the Fascist revolution. "Between war and revolution," Mussolini said, "there is a continuity which is not only historical but spiritual."

"You would not be here unless the revolution had taken place, nor could it be said there would have been another movement with another chief."

"History registers only what actually happens, passing over alternatives and ignoring hypotheses. 'I am giving you a hard order. Italy must be the first nation in the world in the skies, on land and in spirit.'"

'Aphasia' Brings Novel Remedy

Mayor Tells Man To Chalk House Where He Secured Wine

Last night was a bad night for one man of New Castle because he was cold and imbued of potent wine. As a result the man faced Mayor Mayne in police court today.

He told the mayor he had partaken of the wine and when his Honor tried to find out the place where such potent liquid was served the man was stricken with aphasia.

Aphasia is akin to loss of memory so the mayor thought of a remedy. He handed the man a piece of chalk and told him to start out and when

he found the house to mark it legibly. As soon as the city sleuths see the mark no doubt they will try to obtain a sample of the wine and it may be the owner will face the mayor on a more serious charge than did the imbibant.

He was charged with intoxication and when he started out to mark the house the mayor believed that this was sufficient to win a discharge, which was given.

Four Youths Are Taken Into Custody

One Charged With Serious Offense, Three With Disorderly Conduct

Four young men of New Castle were arrested yesterday by State Trooper Andrew Hughmanick and Constable Fallen of this city, one of them being charged with a serious offense and the three others with disorderly conduct. All will be given hearings November 3 before Alderman Green. The charges were preferred by the Constable Fallen.

It appears there was a social gathering in Shenango township.

After the social the young girl got into an auto under the impression her girl companions also were to

get into the car, police say. They did not and the car was driven away and the charges grew out of an alleged affair along the Butler highway.

The young man who will face the more serious charge is Sam Fowler, Homestead street and those charged with disorderly conduct are John Ward, East Washington street and Joseph and William Braden, Butler avenue.

New Castle High Defeats Youngstown 20-0

Seventh Victory Of Season Is Hung Up On Friday Night

Kominic, Lane And Fleming Score Touchdowns In Battle At Taggart Field

Chaney Surprises New Castle With Strong Line, New Castle Passes Well

Combining an intricate forward passing attack with a number of "breaks", New Castle High school "Red Hurricane" football team hung up the seventh straight victory of the 1933 season Friday night at Taggart stadium by defeating Chaney High of Youngstown by three touchdowns 20 to 0. It was the final night game of the season. Captain Walter Kominic, Freddy Lane and Charles Fleming scored the touchdowns that gave the Bribdenbaughmen their victory.

Chaney high surprised a crowd of about 4,000 fans by putting up a stubborn battle. They held New Castle to six first downs. The night was ideal for football, the atmosphere being snappy. The sky was clear. Youngstown sent about 1,000 fans to the game.

Breaks of Game.
New Castle has played better football than was exhibited last night. The backfield men couldn't seem to get started properly. Maybe it was because Chaney was using an eight-man line. New Castle's three touchdowns were almost direct results of "breaks" that came their way. Chaney high didn't get any closer than the eight-yard line and this was also on a "break" when New Castle fumbled.

About two minutes of the first period had passed when New Castle recorded the first touchdown. Morrison kicked off to New Castle on the 40-yard line. Two plays at the line were stopped. Kominic punted to Kabealo, who was stopped. Ash fumbled and New Castle got the ball when "Red" Kneram fell on it on the 10-yard line. Kominic, Nickum and Lane picked up nine yards and then Captain Kominic plunged it over for the score. Nickum made the extra point good.

The remainder of the first period as fought in the center of the field until near the end of the period when New Castle had the ball back on their own 20-yard line after receiving a punt from Kabealo.

Line Plays Well.
New Castle opened up with a forward passing attack in the second period that had the Chaney high team and the fans dizzy. It looked bad for New Castle on the first play of the second quarter when Chaney broke through and blocked the ball and recovered on the New Castle 8-yard line. Three plays by Chaney failed at the line. Howley threw Cello for a loss of three yards and New Castle took the ball on their own 11-yard line on downs. The New Castle line held nicely near the goal line. James replaced Lane at halfback for New Castle.

Kominic punted to Kabealo on the New Castle 40-yard line. Davis of Chaney clicked off a run of 12 yards for the first down of the game for Chaney. New Castle finally took the ball on downs on their own 21-yard line. After a few plays had failed New Castle punted to Chaney. Kabealo of Chaney kicked right back to New Castle. Fleming replaced Kneram at end for New Castle.

Chaney drew a 5-yard penalty and New Castle had the ball on the 45-yard line.

Fleming Scores On Pass.
James went through for five yards and first down to the 40-yard line. Kominic crossed up the Chaney backfield by tossing a forward pass of 30 yards that was taken by Archie Ridley on the Chaney 10-yard line. On the very next play Kominic again tossed the ball and after it had caromed off two or three Chaney players back of the goal line Fleming grabbed it and dopped down for a touchdown. It was a very fine play, but was another "break". Nickum made the extra point good. New Castle 14, Chaney 0. There was only time for a lineup and kickoff before the first half ended.

There was not much excitement in the third stanza. It was just an exchange of punts about three or four times. New Castle simply could not dent that Chaney high line and Chaney found it equally as hard to penetrate the New Castle staunch front wall. The end of the third

Statistics On Football Game

Final Score: New Castle 20, Youngstown Chaney 0.

First Downs: New Castle 6, Chaney 3.

Forward Passes: New Castle tried 7 and made 3; Chaney tried 3 and made 1.

Penalties: New Castle 30 yards; Chaney 5.

Punts: Kominic punted 10 times for total of 400 yards and averaged 40 yards; Kabealo of Chaney punted 9 times for a total of 335 yards and averaged 37 yards.

Yardage of New Castle backfield: Kominic carried 12 times for 25 yards. Lane carried 11 times for 65 yards. Nickum carried ball 15 times for 25 yards. James carried ball 3 times for 6 yards.

period found Kominic kicking to Chaney out of bounds on the Chaney 20-yard line. New Castle and Chaney tried passes in this period, but they were not completed. Kabealo passed to Davis and Lane intercepted it. Chaney smothered one New Castle pass for a 10-yard loss.

Lane Scores.
New Castle's final touchdown came on a most peculiar play and yet a fine play by Freddy Lane, the New Castle speedster. The series of plays was started from the Chaney 20-yard line. Kominic punted to Kabealo on the Chaney 25-yard line and the Youngstown quarterback fumbled the punt. It was recovered by Fred Shelloog for New Castle on the 20-yard line. On the first play Freddy Lane was apparently headed for a sweeping right end run, but he changed his mind, reversed his field and on a cut-back sneaked around the left side of the Chaney line and sped 20 yards for the goal line. It was one of the prettiest plays of the game. The extra point try by Nickum was smeared by Chaney.

There was only about two minutes left after the kickoff and Coach Bribdenbaugh sent in almost his entire second team. The reserves held the Chaney team in check and the game ended with Chaney in possession of the ball in the middle.

Six First Downs.
New Castle only had six first downs to three for Chaney. Not much of a margin in this department. New Castle threw seven forward passes and made three of them good, one for a touchdown. Chaney tried two passes and both were muffed up by New Castle.

Standing out quite prominently on

the New Castle line were Hitchen, A. Shelloog, Raskowski, Howley, Sorto, F. Shelloog and Kneram. The boys all played a whole of a defensive game. On the offense the two best bets for New Castle were Kominic and Lane. Nickum looked good in the forward passing end of the game, as did Kominic. For the Chaney high team the playing of Cherol, Teriacki, Morrison, Ash and Cello featured.

Zelenople Tops Union High 7-0, In Fast Battle

Revamped Union Lineup Plays Fine Game But Are Defeated By Stronger Team

SANKEY SCORES LONE TOUCHDOWN

Zelenople High with a youth named Sankey playing fullback walked off with a 7 to 0 victory Friday afternoon at Union High field. The lone touchdown of the battle was made by Sankey in the fourth and final period. Coach Dave Boyd of Union used a revamped lineup and the Unionites played a fine game, but they were beaten by a bigger and stronger team. Union had 16 first downs to 15 for the invaders from Butler County. Union held Zelenople scoreless for three periods.

In the first period Union rushed the ball to the Zelenople 35-yard line near the end of the quarter and Zelenople intercepted a pass from Morrison just as the whistle blew. Zelenople's best threat in the first quarter was three first downs in a row by Yockey and Sankey that was stopped on the Union 40-yard line.

Good Defensive Game
At the start of the second period Union worked the ball to the Zelenople 30-yard line again only to lose it on downs. Todd, Monico and Morrison did the ball totting for Union. Rowbottom of Union intercepted a Zelenople pass and Union worked the ball to the 20-yard line but lost it on downs. Zelenople was working the ball down the field with Frankenstein and Simmons doing the best work when Captain Wayne White of Union intercepted a pass as the first half ended.

Union High started to go places as the third period began with Todd ripping off a 20-yard run and

Monico clipping a pass to Morrison for 20 yards, but a 15 yard penalty hurt and Union was forced to kick. Zelenople punts back to Union and Schae breaks away for a 20-yard run off tackle. Union was forced to punt as the third period ended.

Sankey Scores
At the start of the fourth and final period Zelenople staged a big parade to the goal line with Sankey and Yockey carrying the ball for four first downs in a row. Sankey finally went over for the lone touchdown of the game and plunged for the extra-point.

Union took the kickoff after touchdown and started a big parade to the visitors goal line with passes filling the air, and with Monico completing three passes in a row to White, Morrison and Todd, but Zelenople man intercepted a pass from Morrison to Monico and punted out of danger to the middle of the field and lost it on an intercepted pass as the game ended.

The big Zelenople fullback Sankey 6 feet 4 inches and weighing 200 pounds looked the best in the visitors lineup, with Yockey also playing a good offensive game. On the defense the work of Bicker, Sprot and Bolivar was the best for Zelenople. In the Union lineup the playing of Captain Wayne White, Monico, Pattison, Todd, Wimer, Hughes and Kirker were the stand-outs.

Union tried seven passes and made good on five of them. Zelenople tried four passes and made good on one of them. Bessemer High at Union is the next game on Friday afternoon, November 3.

Bessemer High Tops Slippery Rock Team 43-0

Bessemer High Team Drives For Six Touchdowns Against Slippery Rock

MARSHALL-SHOUP STARS OF GAME

Bessemer High school's husky forward wall and a sparkling aerial and running attack combined to crush a fighting, but sadly outclassed Slippery Rock High School team to the tune of 43-0 at Bessemer yesterday.

Coach Frederick used every man in uniform yesterday, the first stringers playing only half the game, but the parade did not stop, never even paused.

Marshall Scores
The locals had their first touchdown before the game was 5 minutes old. Bessemer recovered a Slippery Rock fumble on the 15 yard stripe and on the next play Clark shot a pass to Marshall who took it on the 7 and skipped over the goal. Clark's attempt to convert was wide.

The next score came early in the second period after Bessemer had worked the ball to the 1 yard line. Shoup took it and slid off tackle and crossed over for the touchdown. This time Clark booted the ball squarely between the uprights for the point.

Bessemer garnered two more points in the next few minutes. Slippery Rock was forced back to their own 19 and attempting to run back a bad pass from center, Cooper was tackled by Sankovitch behind his own goal line.

Possy Takes
Bessemer's second stringers went in here and taking the ball on the Slippery Rock 45, Glass, Bessemer halfback shot 3 successive passes, each of which Possy, his running mate, was on the receiving end and each of which were successful.

The final one Possy took on the 15 and snaked over for the touchdown. Glass passed again to Possy for the extra point.

In the third quarter Bessemer pushed the ball to the 6 inch line and Medur, sub quarterback, plunged it over. The first team came back into the game and Clark kicked the extra point.

Navarra Goes Over
Bessemer kicked off to Slippery Rock but the visitors were forced to punt and Bessemer immediately proceeded to march the ball back down the field and at the opening of the final period Navarra took it over from the 4 yard line. Clark again booted the extra point.

Subs Get Chance
The locals final touchdown was contributed by the second stringers again, Glass totting the ball around left end for 20 yards and the score.

Medur plunged the extra point, Bessemer's passing and running completely overwhelmed the inexperienced college towners. The Bessemer lads tried 15 passes and completed 10 which is some sort of a record. In the running game Bessemer had a total of 22 first downs. Slippery Rock had 2 first downs and tried two passes, both of which were intercepted by Bessemer men.

The lineups:
Bessemer—43 Slippery Rock—0

HERE AND THERE IN SPORTS' LAND

Although Geneva was from St. Vincent 13 to 7 last night at Beaver Falls the victory was not without a loss as Autlman, left end sustained a fractured leg. The break came in the second period.

Cam Henderson, coach of Davis & Elkins, told friends at Fairmont, W. Va., that he would be very much interested if offered the position of head coach at West Virginia U. He has often been mentioned as a probable successor to Earle Neale, present coach.

Grove City High football team

lost its string of victories in part for the season by defeating Farrell 23-14 to 8 at Farrell, Pa. The Hartman coached team has defeated Greenville and Sharon in recent games.

Cerra Hopes To Trim Goodballet

Sixteen A. A. U. Boxers End Heavy Training For Monday Bouts

FANS EXPECT TO SEE ACTION GALORE

With all of the 16 battlers in condition and heavy training completed, the A. A. U. boxers who will swap blows at Castle Bowl Monday night will confine the balance of their training to loosening up exercises. Practically all of them will go for a several miles walk tomorrow morning and in the afternoon indulge in shadow boxing, weight pulling and skipping the rope. In order to keep down their weights they will partake only of light though refreshing foods.

One of the liquids they will shun is water, as one glass may have a tendency to put a pound or two of extra avoirdupois on some of the boys. All of them are "drying out" and want to be on razor edge when the bell sounds at 8:30 p. m.

The big furnaces will commence operating early Monday morning, and with the fans eager to get a glimpse of some of the fifty fighters on the card, there's no question but that they will see some of the boys who will go far up the tourney ladder.

Tony Cerra of Farrell is sure to cut a wide swath in the tourney, win or lose, Monday night. Keith Goodballet is the middleweight champion of East Liverpool, but being a non-resident he will not be allowed to enter the Pennsylvania meet. However, he wants to best Tony here.

Lots of Right-Handed Fences

Cerra handed him a lot of right-handed punches on the kisser at Ellwood City. Keith maintained he wasn't in the shape he ought to have been and with the stain on his record wants to erase it, southpaw fashion, in the Bowl ring.

Joey Evans, winner of several tournaments at 120 pounds, will battle Jack Trotter, a tough youngster from East Liverpool, and when Tony Adamo of this city steps out there'll be a roar of cheers for Pete Boy and Adamo. They're vicious sluggers.

Considerable interest has centered in the Ray Gray-Eddie Owens scrap. Eddie is a high school lad who has the support of his fellow students. Gray is a South Sider and they'll be shouting "South Side against the world."

Frankie Rachig, a neatly built Bessemer lad, is aching to put the kibosh on Paris Cangey's Larry Weaver. Jimmy Dime plots Rachig and naturally he wants to see his protégé beat Weaver, who is trained by Cangey, once a fighter under Dime's banner.

Charley Arket has fought Nick Rossi and wants to meet Ray Atkinson. In order to show his ability he hopes to take over Albe Lawn, a blonde sparring partner of Atkinson. Louie Storte, Edubury, and Adolf Cortes will clash in the first preliminary.

Return Alleged Gambling Machines

Two of the 21 alleged gambling devices confiscated by city police have been returned to their owners, according to city police. The owners of the machines paid the local men back their investment in the machines, hence the police action in allowing them the machines.

THREE MORE GIRLS PASS SWIM TESTS

Three more girl swimmers at the Y. M. C. A. have successfully completed the test which all beginners must take before they advance to more difficult work.

The three were Betty Drio, Ellen Kelly and Louise Shaffer.

NEW POST OFFICE GROWS IMPOSING AS JOB PROCEEDS

Average Of 70 At Work During October—Under Roof In Month

While the public probably has been unaware of it, an average of 70 workmen have been employed daily on New Castle's new federal building during October. Federal Construction Engineer Miles E. Myers announced today, Myers said the high peak reached during the month was 90 while the smallest working force was 60.

"Undoubtedly, more men will be given work as construction reaches the point where other work must be done," the engineer commented. Within another month, he added, the building should be completely under roof.

Roof Job Commenced
Erection Superintendent, Frank Engbreton has been supervising the work of pouring the concrete for a part of the roof this week. Bricklayers are keeping busy laying back-up brick behind the stone walls and carpenters, plumbers and electricians are continually occupied with different jobs.

Work on setting the last huge pillar pieces along the Washington street front was being completed. Setting of limestone caps along the South Jefferson street and Diamond Way walls has commenced.

The government some time ago authorized the contracting firm, the A. W. Kutsche company, Detroit, to switch from Pennsylvania sandstone to Indiana limestone when the work had risen as high as the pillar tops. The limestone comes from the Shawnee quarries near Bloomington, Ind.

On December 1 the new aluminum window frames for the structure are expected to arrive.

Within the next few days the brick driveway leading into the building's rear loading platform will be laid.

Foresters Complete Mountain Road Job

Project At Elimsport, Pa., Is 3 1/2 Miles Long; Bar-racks Rising

By VIC DRIVER

(Special To The News)

CAMP RALPH HILL COMPANY, 366, C. C., ELIMSPT, Pa., Oct. 27.—Our first major project, a three and a half mile mountain road, has just been completed. This road is a connecting link between state

route number five hundred and fifty four and the location of a fire tower and serves as an accessible passage to an entire mountain range. Three miles from the intersection of these roads is found South Williamsport, a suburb of Williamsport. In this locality is found the famous Locomotive Motors Corporation, manufacturers of boat, auto and aeroplane motors. A phase of the industry is the testing of the finished product and for many miles surrounding one may hear the continual hum of the aeroplane engines.

The construction of the permanent barracks is in full progress and will be occupied immediately upon completion. Each barracks is one hundred and eleven feet long and 21 feet wide. Private citizens are employed in the erection of the buildings and the lumber contract is "let out" to a local private concern.

A minimum of four carpenters and six laborers are employed in the erection of these buildings. Refor-

estation men are forbidden to assist in this enterprise. Members of this company are voluntarily giving their spare time to the erection of a recreation hall, which will be the mecca of entertainment when the severe winter weather arrives.
